SCHOOLS_

Marathon Kids UK in schools is a free schools-based running and activity programme designed to get more kids moving, earning rewards on their way to becoming healthier and happier.

Led by an army of enthusiastic teachers, teaching assistants and headteachers, children are encouraged to complete as many laps of a course or track, as they build towards that epic achievement of running 42.2km, the distance of a full marathon.

Marathon Kids are given the annual challenge of completing four marathons in an academic year, a feat many achieve, with some going far beyond this. Pupils are rewarded along the journey for each milestone they complete.

At the end of each academic year, Marathon Kids UK hosts a special Festival of Running event, where schools are invited to come and compete, showing how much progress their pupils have made.

PARKS_

Marathon Kids UK in parks is a free programme that runs in parks all over the UK on weekends and in the school holidays, allowing children to maintain regular exercise even when school's out.

Marathon Kids UK in parks is led by superstar volunteers from all walks of life.

Cheered on by parents, friends and volunteers, the children complete laps of a 250m course, earning wrist bands as they go. At the end of the session, the distance they've racked up is added to their personal account on the Marathon Kids UK app and they are awarded with a sticker.

Each Marathon Kids UK event has a Community Ambassador and team of volunteers who are given the training required in order to make the events safe, fun and exciting for the children who attend.
