## Pupil premium strategy statement – Merridale Primary School

This statement details our school's use of pupil premium funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the outcomes for disadvantaged pupils last academic year.

### **School overview**

Detail	Data
Number of pupils in school	240
Proportion (%) of pupil premium eligible pupils	50.5%
Academic year/years that our current pupil premium strategy plan covers	2024-25
Date this statement was published	December 2024
Date on which it will be reviewed	November 2025
Statement authorised by	L Towle
Pupil premium lead	L Towle
Governor / Trustee lead	Mr M Rizwan (Chair)

## **Funding overview**

Detail	Amount
Pupil premium funding allocation this academic year	£125,800
Pupil premium funding carried forward from previous years (enter £0 if not applicable)	£0
Total budget for this academic year	£125,800

## Part A: Pupil premium strategy plan

## **Statement of intent**

At Merridale, our intention is that all pupils, irrespective of their background or the challenges they face, make good progress and achieve across all subject areas. The focus of our pupil premium strategy is to support disadvantaged pupils to achieve that goal, including progress for those who are already high attainers. The percentage of pupils who are disadvantaged at Merridale is well above average compared to national figures.

Our PP Strategy is strongly informed by EEF Research and evidence-based practice (as well as professional expertise and knowledge of our school and community context) and has the three tiered approach of high quality teaching, targeted academic support and wider strategies (which for us focuses very specifically on helping pupils overcome SEMH barriers so that they are in a position to learn and supporting the wider family at its heart).

Our ultimate aim is to narrow the attainment gap between disadvantaged and nondisadvantaged pupils nationally and also within internal school data. We believe that, with the right support and timely intervention, all children are able to maximise their potential. By identifying barriers to achievement and establishing a climate of aspiration and engagement, we aim to inspire our pupils and their families to commit themselves to lifelong learning. School staff work tirelessly to develop and maintain strong, nurturing relationships which are rooted in mutual respect to ensure our pupils receive the highest quality support and learning opportunities that are engaging and fun.

We consider the challenges faced by all vulnerable pupils, such as socio-economic factors, low prior attainment, proficiency in English, social care involvement, mental health and well-being when planning high quality teaching and learning opportunities. We carefully monitor progress and use this to plan the next steps in each child's educational journey. The activity we have outlined in this statement is also intended to support their needs, regardless of whether they are disadvantaged or not.

Merridale Primary School serves and celebrates a diverse community with many children and their families having English as an Additional Language. The school has 16 out of 17 possible ethnic groups. 58% of our disadvantaged children also have English as an Additional Language. Our school intends to develop and sustain a language-rich environment to enable all pupils to be able communicate, understand and express themselves.

29% of our disadvantaged pupils are also identified as having additional needs (SEND)

School is committed to ensuring that pupils have a wide range of outdoor opportunities to enhance learning through real life experiences. Educational visits are carefully planned to ensure that all pupils experience learning and life beyond the classroom. School takes every opportunity to develop children's cultural capital.

The school prioritises the mental health and well-being of all pupils and provides resources, including interventions and specialist staff, to ensure pupils' needs are met effectively.

High-quality teaching is at the heart of our approach, with a focus on areas in which disadvantaged pupils require the most support. This is proven to have the greatest impact on closing the disadvantage attainment gap and, at the same time, will benefit the non-disadvantaged pupils in our school. Implicit in the intended outcomes detailed below, is the intention that non-disadvantaged pupils' attainment will be sustained and improved alongside progress for their disadvantaged peers.

Our approach will be responsive to common challenges and individual needs, rooted in robust diagnostic assessment, not assumptions about the impact of disadvantage. The approaches we have adopted complement each other to help pupils excel. To ensure they are effective we will:

- ensure disadvantaged pupils are supported and challenged in the work that they're set
- act early to intervene at the point need is identified
- adopt a whole school approach in which all staff take responsibility for disadvantaged pupils' outcomes and raise expectations of what they can achieve

The school location deprivation indicator is in quintile 4 (more deprived) of all schools. The pupil base is in quintile 5 (most deprived) of all schools in terms of deprivation.

Wolverhampton is the 12<sup>th</sup> out of the 20 Local Authority distracts with the highest proportion of children and older people in income deprivation (27.1% of children living in income deprived households)

• The English Indices of Deprivation 2019 (publishing.service.gov.uk)

## Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	To improve attendance for all pupils, particularly our disadvantaged pupils.

	Our attendance data over the last 3 years indicates that attendance amongst disadvantaged pupils has been between 2.3 and 1.48% lower than non disadvantaged pupils.
	In 2023-24, 23.5% of disadvantaged pupils have been "persistently absent" compared to 13.1% of their non disadvantaged peers during the same period. Our assessments and observations indicate that absenteeism is negatively impacting disadvantaged pupils' progress.
2	Assessment on entry to the Early Years Foundation Stage shows the majority of our pupils (and especially those who are identified as disadvantaged) have greater difficulties with Communication and Language, Personal, Social and Emotional Development, Literacy and Numeracy compared to their non disadvantaged peers.
	On entry into our EYFS in September 2024 (Nursery and Reception) these gaps ranged from 4 to 33% in these key areas.
3	Phonics attainment in Year 1 for the Phonics Screening Check is lower for disadvantaged pupils compared to their non disadvantaged peers. This is especially true for disadvantaged boys.
	At the end of Year 1 in 2024, 62% of disadvantaged pupils achieved the expected standard for the Phonics Screening Check (PSC), compared to 82% of their non disadvantaged peers. Nationally, 68% of disadvantaged pupils achieved the expected standard for the PSC.
	Attainment in PSC for disadvantaged boys in 2024 was 50% (compared to 63% for disadvantaged boys nationally). 71% of disadvantaged girls passed the PSC (compared to 74% of disadvantaged girls nationally).
4	To narrow gap between PP and non PP pupils in school in core subjects, specifically, reading, writing and maths in Years 2, 3, 4 and 6 where the gap between disadvantaged and non-disadvantaged pupils ranges from 14 to 44%
5	Socio-economic factors which affect learning and achievement: the school serves a community which is amongst one of the 20% most deprived neighbourhoods in England. The school currently has over 50% of pupils identified as disadvantaged, nearly double the national average.
	Significant social, emotional and well-being issues for some disadvantaged pupils. A number of our children have challenges with routines, managing emotions and behaviours, social relationships and independence/self-care skills. Parenting support from the school is centred around meeting basic needs, ensuring safety, emotional support, guidance and boundaries and stability at home.
	Referrals for support from external partners and our own Family Support Worker remain high for disadvantaged pupils and their families.
	A significant number of our families are currently, or have recently been, supported by social care and/or strengthening families. Our strong collaboration with external services, our Family Support Worker, training for staff, open-door policy for families as well as our support offer to other agencies helps to support our most vulnerable families.
6	Observations and discussions with pupils and families have indicated that many pupils in receipt of pupil premium funding have limited experiences outside of school to develop their wider knowledge and cultural capital.
7	58% of our disadvantaged pupils also have English as an Additional Language. 71% of these pupils have either little/no English or are developing acquisition of language (Proficiency in English Language A to C). This is a barrier to attainment and progress across the curriculum for these pupils and means that

they require high levels of support to be able to access the curriculum and	
learning opportunities.	

## Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria	
To improve attendance for disadvantaged pupils.	To continue to improve attendance for disadvantaged pupils and narrow the gap between PP and NonPP attendance figures. To reduce the percentage of disadvantaged pupils who are persistently absent.	
	Whole academic year 2023-24	
	Whole school (Years 1-6) attendance percentage: 94.4%	
	Disadvantaged (Years 1-6) attendance percentage: 93.5%	
	Non disadvantaged (Years 1-6) attendance percentage: 95.3%	
	Percentage of pupils who are Persistent Absentees Years 1-6: 17.8%	
	Percentage of pupils who are Persistent Absentees and also disadvantaged Years 1-6: 23.5%	
	Percentage of all non disadvantaged pupils who are Persistent Absentees Years 1-6: 13.1%	
Improve outcomes for disadvantaged pupils by the end of the Early Years Foundation Stage.	Assessment data and observations will show improved outcomes for disadvantaged pupils in Communication and Language, Personal, Social and Emotional Development, Literacy and Numeracy, closing the gap between them and their non disadvantaged peers.	
Improved Phonics Screening Check attainment for	For PSC outcomes for disadvantaged pupils to be at least in line with disadvantaged pupils nationally, particularly for disadvantaged boys.	
disadvantaged pupils, particularly disadvantaged boys.	To narrow the gap between disadvantaged pupil attainment in PSC with their non disadvantaged peers (gap in 2024 was 20%)	
To continue to narrow the attainment gap between pupil premium children and their non disadvantaged peers.	To narrow the gap between disadvantaged pupils and their non disadvantaged peers in Years 2,3,4 and 6 in reading, writing and maths. To narrow the gap in maths in Year 5.	
Continue to reduce the impact of significant socio- economic and social, emotional and well-	Children have the ability to learn, manage their emotions, form and maintain good relationships and to cope with, and manage change. Pupils and families requiring support are identified early and provision/intervention/support is planned and delivered to have an	

being issues for some disadvantaged pupils.	impact on well-being which, in turn, leads to pupils better able to access learning across the curriculum.
	Number of children and families requiring immediate, priority support from Family Support Worker and Learning Mentor reduced. Learning Mentor and Family Support Worker to have more time to work on pre- emptive support rather than reactive measures.
	Children with mental health, social and emotional barriers notice how they are feeling and continue to build respectful relationships and are responsible for their choices.
Many pupils in receipt of pupil premium funding have limited experiences outside of school to develop	All pupils will be offered a wide range of enrichment and extra- curricular opportunities. All PP children wishing to join a club will be encouraged to do so – offered free of charge each term.
	Pupil voice will influence the range and type of clubs offered – particular attention to be paid to the voice of PP children who do not currently attend a club.
their wider knowledge and cultural capital.	School to maintain and increase contributions towards extra- curricular activities, school trips, visitors and memorable experiences in order to enhance cultural capital and increase knowledge to ensure that PP children can access a wide range of opportunities in line with Non PP peers.
An inclusive approach continues to ensure all children have access to	Children with English as an additional language and/or social and emotional barriers, including new arrivals feel safe, nurtured, confident and calm at school. They continue to develop a sense of belonging.
opportunities that enrich learning and improve academic language	

## Activity in this academic year

This details how we intend to spend our pupil premium funding **this academic year** to address the challenges listed above.

### **Teaching (for example, CPD, recruitment and retention)**

Budgeted cost: £ £95,000

Activity	Evidence that supports this approach	Challenge number(s) addressed
Quality First Teaching CPD/Monitoring Focus on assessment for	Evidence informs us that quality first teaching is the most effective way to improve children's outcomes and can narrow the disadvantage gap. Our program of coaching and mentoring, as well	2, 3, 4, 7

learning and adaptive teaching and feedback and questioning.	as external and internal CPD, builds on existing knowledge and provides instruction and modelling to support development of teaching techniques.

Development of The Hive to provide appropriate provision for pupils with significant SEND		
Early Years CPD developing quality interactions between	Research suggests that the quality of adult interactions with children during their continuous provision and play has the biggest impact on improving children's communications and	2, 6, 7

		Γ
staff and pupils and pupils and their peers	interactions. Historically, our children (due to high levels of EAL) come in and leave EYFS significantly below national. Our aim is to improve interactions and vocabulary across EYFS to help close this gap. Development of a rage of approaches and staff CPD to encourage quality interactions during play The OFSTED definition of teaching in EYFS states that it includes adult "interactions with children during planned and child initiated play and activities: communicating and modelling language; showing, explaining demonstrating, exploring ideas; encouraging, questioning recalling; providing a narrative for what they are doing; facilitating and setting challenges." <u>EEF blog: The ShREC approach – 4 evidence- informed strategies…   EEF (educationendowmentfoundation.org.uk)</u>	
	(educationendowmentfoundation.org.uk) <u>Early literacy approaches   EEF</u> (educationendowmentfoundation.org.uk)	
Early Years Continue to use the language diagnostic/intervention strategy WellCom and give time to EYFS Leader to ensure that all EYFS staff are implementing this correctly and accurately to ensure maximum impact on early language acquisition.	Delayed language skills lead to underperformance in later life. This approach helps to identify children with speech and language issues early and address through targeted support and strategies. There is a strong evidence base that suggests oral language interventions, including dialogic activities such as high-quality classroom discussion, are inexpensive to implement with high impacts on reading. <u>WellComm - GL Assessment (gl-</u>	2
	assessment.co.uk) Oral language interventions   EEF (educationendowmentfoundation.org.uk)	
	Communication and language approaches   EEF (educationendowmentfoundation.org.uk)	
Employing additional teachers to reduce class sizes in key year groups to deliver focussed lessons, responding to children's individual needs and gaps in learning.	Reducing class sizes by at least 10 allows teachers to teach more flexibly and adapt their teaching styles to best meet the needs of all pupils <u>Reducing class size   EEF</u> (educationendowmentfoundation.org.uk)	2, 3, 4, 5, 7
Continued training and CPD for EYFS teachers	The evidence points to a number of positive consequences of inter-school collaboration in	2

on EYFS framework through local Network and LA network meetings as well as links with peer support school.	relation to impacts upon students, teachers, school improvement and organisational efficiency. <u>Effective school partnerships and collaboration for</u> <u>school improvement: a review of the evidence</u> (publishing.service.gov.uk)	
Implementation of Jigsaw RHE/PSHE scheme to improve RHE and develop pupil well-being and mental health	School recognises the importance of addressing children's emotional, social and behavioural needs. With the right support, children learn to articulate and manage their emotions, deal with conflict, solve problems, understand things from another person's perspective, and communicate in appropriate ways. These 'social and emotional skills' are essential for children's development, support effective learning, and are linked to positive outcomes in later life. Through Jigsaw's comprehensive, spiral progressive scheme of work, students will learn about themselves, others, and the world around them. They'll learn about various subjects, such as developing and maintaining relationships with friends and family. And they'll acquire the skills they need to better prepare themselves for the challenges that await them in adulthood. Our statutory PSHE programme is fully planned out and delivered in a way that makes it super-easy for schools to implement. <u>EEF Social and Emotional Learning.pdf</u> (educationendowmentfoundation.org.uk) <u>PSHE Curriculum KS2   Primary PSHE Lessons   Jigsaw PSHE</u>	5

# Targeted academic support (for example, tutoring, one-to-one support, structured interventions)

Budgeted cost: £35,000

Activity	Evidence that supports this approach	Challenge number(s) addressed
Specific Interventions Targeted deployment of Teachers/TAs/HLTAs to lead interventions based on: A baseline of developing – need to make accelerated progress to be on track. PP pupils with ability/potential to maintain or move to GD.	Diagnostic assessments and analysis shows a gap between PP and non PP at ARE in a selection of classes and also with the number of pupils achieving GD Research shows short, regular (within a time frame) sessions have the best impact. Also, impact is at its best when linked with normal teaching. Interventions are monitored and evaluated for impact and effectiveness.	3, 4, 5, 7

Number Stacks Maths intervention Kinetic letter handwriting intervention EAL support Toe by Toe interventions Pre-teaching activities Reading fluency intervention	Evidence shows the best use of TAs, providing greater impact for pupils is in providing structures interventions compared with general class support. <u>Small group tuition   EEF (educationendowmentfoundation.org.uk)</u> <u>One to one tuition   EEF (educationendowmentfoundation.org.uk)</u>	
Class teachers provide one hour's booster tuition each week (after school) for targeted pupils in identified subject areas to raise attainment and achievement.	Small group tuition is most likely to be effective if it is targeted at pupils' specific needs. Diagnostic assessment can be used to assess the best way to target support. <u>Small group tuition   EEF</u> (educationendowmentfoundation.org.uk)	3, 4, 5, 7
Teaching Assistant provides small group tuition each week after school for 3 x 30 minutes for identified pupils in phonics.	Small group tuition is most likely to be effective if it is targeted at pupils' specific needs. Diagnostic assessment can be used to assess the best way to target support. Phonics approaches have a strong evidence base indicating a positive impact on pupils, particularly from disadvantaged backgrounds. <u>Small group tuition   EEF (educationendowmentfoundation.org.uk)</u> <u>Phonics   EEF (educationendowmentfoundation.org.uk)</u> <u>The reading framework - teaching the foundations of literacy</u> (publishing.service.gov.uk)	3, 4, 7
Teaching Assistant deployed to provide small group and one to one targeted intervention for four days per week – targeted support for phonics and reading comprehension across Key stage 1 and 2. Fast Track 1:1 RWI tuition	Teaching assistants provide a large positive impact on learner outcomes when Teaching Assistants are well trained and deliver high quality interventions to targeted pupils in collaboration with class teachers. <u>Teaching Assistant Interventions   EEF</u> (educationendowmentfoundation.org.uk)	3, 4, 7
Teaching Assistant to provide individualised learning programme support for targeted pupils	Doodle platform, with its curriculum-aligned content for Year 1 to Year 6, boosts ability by challenging and supporting all learners. This platform is engaging and adaptive, providing opportunities for children to learn and succeed and be rewarded for this. Children	4, 5, 7

who do not have the resources for this at home	work in short bursts and teachers can measure the impact and engagement.	
Each class (Year 1-6) to provide parent/carer Doodle workshop to maximise support and engagement at home.	For primary schools   DoodleLearning	

# Wider strategies (for example, related to attendance, behaviour, wellbeing)

Budgeted cost: £25,000

Activity	Evidence that supports this approach	Challenge number(s) addressed
The school employs the services of an Educational Welfare Officer to monitor and analyse attendance data regularly to ensure that intervention is delivered quickly to address absence. Our EWO create action plans in partnership with families and follow local authority codes of conduct, policies and procedures and make referrals for statutory intervention when interventions have not resulted in improved attendance and relevant triggers / thresholds are met. Termly meetings with LA Attendance Advisor to identify strengths and strategies.	By working closely with the School administrator and senior leaders, the EWO has a positive impact on the attendance of pupils and those at risk of becoming persistent absentees. Improving school attendance: support for schools and local authorities - GOV.UK (www.gov.uk) Using the Pupil Premium to boost attendance - Attendance Matters Magazine (attendancemattersmagonline.co.uk)	1, 5
School recognises and rewards good and improved attendance and punctuality through positive relationships, class teachers and leader address attendance issues directly with families. Attendance data is published on the website and celebrated	The school delivers clear messages about expec- tations, routines and consequences to new pupils and families through newsletters and prospectus Senior leaders use physical presence to reinforce routines and expectations on arrival and depar- ture. <u>Improving school attendance: support for</u> <u>schools and local authorities - GOV.UK</u> (www.gov.uk)	1, 5

	Lieing the Dupil Departments is a set offer day of	
in whole school assemblies (weekly and termly). Attendance policy is in place and applied consistently.	Using the Pupil Premium to boost attendance - Attendance Matters Magazine (attendancemattersmagonline.co.uk)	
The school provides daily sensory circuit/Cool Kids activities for identified children. Wherever possible, school staff also provide opportunities for sensory circuit (sensory snacks) for children that benefit from these throughout the day as necessary	Sensory circuits are short, sensory-motor skills programmes that can help support children in getting ready for the day. Children can participate in 10-15 minute sessions designed to provide sensory input. Sensory circuits are a circuit of activities that allow children to practice different motor skills in short snappy bursts and get them ready for the day ahead of them. The circuits help children to reach a level of alertness that will help them to concentrate throughout the day. Sensory Circuits - Childrens Choice Therapy	1, 4
The school ensure all children can take part in off-site visits throughout the school year as well as a residential visit in Year 6. These visits are subsidised for disadvantaged pupils to ensure all are able to take part.	The study, conducted by education think-tank LKMco, revealed that only one in five of secondary and primary pupils go on residential trips each year – and that youngsters in disadvantaged areas have the fewest opportunities to take part. This is partly due to cost and partly due to the fact that they are more likely to live in areas where fewer residential trips are available. Pupils in disadvantaged areas (areas where a large proportion of pupils are eligible for Free School Meals) have fewer opportunities to participate in residentials than their peers in more advantaged areas.	1, 5, 6
Disadvantaged children are provided with a wide range of books and resources to use inside and outside of school e.g. Book Fair vouchers, free books at Christmas and throughout the year, revision books, phonics packs	(PDF) Learning Away - The state of school residentials in England 2017 (researchgate.net) Disadvantaged children are more likely to live in overcrowded and noisy homes and often without the same access to the internet, technology, books and other resources. Their parents are also often less able to support learning at home due to lack of time, skills, and confidence. Supporting disadvantaged children in the early years   Croner-i (croneri.co.uk)	2, 3, 4, 5, 6, 7
Workshops and resources provided for parents and carers to help them support their children with their learning at home (ESafety, Phonics, Times tables, KS2 assessments)	One of the main influences on a child's early de- velopment is what happens in the home. How- ever, disadvantaged children are less likely to ex- perience a home environment that can best sup- port their development, particularly in relation to early language. Research suggests that children achieve better social and educational outcomes when early years providers encourage parents' engagement in their children's learning. Good practice in- cludes sharing educational aims with parents and	2, 3, 4, 5

	supporting children's learning at home with sug- gested activities that complement their experi- ences in the provision.	
	Parental engagement   EEF (educationendow- mentfoundation.org.uk)	
	Parental_Engagement - Evidence_from_Re- search_and_Practice.pdf (d2tic4wvo1iusb.cloud- front.net)	
	Supporting disadvantaged children in the early years   Croner-i (croneri.co.uk)	
The school provides regular opportunities to develop the cultural capital of children at Merridale, particularly those children who are disadvantaged through trips, visits, experiences and extra curricular activities. "Merridale Memories" ensures this approach is embedded across the school	Through use of school funds to ensure all children but particularly those who are disadvantaged, can access a wide range of experiences and opportunities, we believe we can help children achieve goals, become successful, and rise up the social ladder without necessarily having wealth or financial capital. Effects of economic, social and cultural capital at home and in the neighbourhood on young people's educational attainment (PDF) Cultural Capital and Educational Attainment (researchgate.net)	5, 6
The school employs a Family Support Worker to support children and families to overcome barriers and signpost appropriate support.	The role of the Family Liaison Officer is to improve children's well-being and achievement through support of the family. By working closely with the Education Welfare Officer, they can help families overcome attendance issues as well as leading on Early Support Plan, Family Help Plans, safeguarding and child protection interventions and meetings	1, 5, 6

These parents are known as Parent Ambassadors, and are employed part-time by schools to work alongside teachers and other school staff as key members of the school workforce. Our Parent Ambassadors run regular coffee afternoon/drop in sessions and deliver the "Making it REAL" project to targeted families. They also work alongside Adult Education to provide family learning opportunities for our families to access at school. <u>Making it REAL</u> <u>Wolverhampton Parent Ambassadors YouTube</u>	
The school engages the NHS Reflexions service to support targeted pupils with mental health and well-being issues. CBT support provides emotional support and coaching to build resilience and develop confidence. Reflexions is a Mental Health Support Team (MHST), - a new service to help increase access to mental health support for children and young people in schools.	Some children benefit from talking to a professional, someone who has the training to help with their particular concern and someone who is unbiased. By creating a safe space to talk through their concerns, child CBT can help children understand their emotions better, develop coping skills and build emotional resilience, something that will serve them well into adulthood. Reflexions Service   Wolverhampton Information Network Overview - Cognitive behavioural therapy (CBT) - NHS Social and emotional learning   EEF (educationendowmentfoundation.org.uk) bacp-research-on-counselling-psychotherapy- with-children-young-people-systematic-review- 2013.pdf	1, 5
The school uses the services of external mentors to provide targeted support to pupils to support in SEMH needs as well as behavioural issues.	The role of the Mentor is to improve children's well-being and achievement through support of the child and family to develop social, emotional and mental health resilience. <u>Social and emotional learning   EEF (educationendowmentfoundation.org.uk)</u> <u>Behaviour interventions   EEF (educationendowmentfoundation.org.uk)</u> <u>Improving Behaviour in Schools   EEF (educationendowmentfoundation.org.uk)</u>	1, 5
The school works with external advisors and partners to provide	Engagement with external partners to develop approaches to support learners through an inclusive approach e.g. Educational	1, 5, 7

physical, emotional and mental health well being	Psychologist, Outreach, Social Care, NHS, Strengthening Families.	
	Staff receive CPD and training to develop their practice to ensure a whole school inclusive approach.	

Total budgeted cost: £ 155,000

## Part B: Review of the previous academic year

## **Outcomes for disadvantaged pupils**

At the expected standard, Merridale pupils outperformed the national average for disadvantaged pupils in all core subjects at KS2.

At Merridale, at the expected standard, in all subjects, disadvantaged pupils outperform non disadvantaged pupils.

At the higher standard, Merridale disadvantaged pupils perform better than national averages in reading, maths and GPS

At the higher standard, disadvantaged pupils perform less well than national averages in writing at the end of Key Stage 2

### Aspirational target 2023-24:

Achieved: Whole school attendance to be in line or above National average. Achieved: Narrow the gap between PP and NonPP attendance

21-22: Gap was 2.3%

22-23: Gap was 1.68%

23-24: Gap was 1.48

Gap is narrowing

Partially achieved: To reduce the overall percentage of persistent absentees, particularly those who are PP.

Whole school persistent absentee percentage has decreased overall over the past 3 years (from 22.3% to 17.7%). However, over the past 3 years, the percentage of disadvantaged pupils who are persistently absent has not decreased (24.4% in 2021-22 to 23.5% in 2023-24).

### Whole academic year 2023-24

Whole school (Years 1-6) attendance percentage: 94.4% (National 94.5%)

Disadvantaged (Years 1-6) attendance percentage: 93.5%

Non disadvantaged (Years 1-6) attendance percentage: 95.3%

Percentage of pupils who are Persistent Absentees Years 1-6: 17.8%

Percentage of pupils who are Persistent Absentees and also disadvantaged Years 1-6: 23.5% Percentage of all Non disadvantaged pupils who are Persistent Absentees Years 1-6: 13.1%

Achieved - Improved vocabulary acquisition and language comprehension among disadvantaged pupils by the end of EYFS.

Outcomes of WellCom end of reception assessments show improved word acquisition and language comprehension for disadvantaged pupils and this is broadly in line with non disadvantaged pupils.

Nursery	CL Baseline Sept 23 EXS	Aspirational Target June 24 EXS	CL Endline July 24 EXS
PP	17% ( 2/12 pupils)	50% (6/12 pupils)	56% (5/9 pupils)
NonPP	50% (6/12 pupils)		58% (7/12 pupils)

Partially achieved: For pupils in receipt of pupil premium to achieve the required standard in phonics in line with national figures and non PP pupils.

Year 1 phonic check outcomes for pupil premium pupils to be more in line with national figures (for pupils without EHCPs)

Year 1	Phonics baseline Sept 23 On track (or above) in phonics	Aspirational Target June 24	Phonic Screening Check June 2024 Pass
PP	45% (5/11pupils)	73% (8/11pupils)	62% (8/13 pupils) (68% PP children and 84% NonPP children passed PSC Nationally) 2 pupils with EHCPs – removed: 73% (8/11 pupils) PP Boys 50% passed PSC PP Girls 71% passed PSC XPP Boys 75% XPP Girls 89%

Merridale ALL	
Y1 PSC (National)	73% (79%)

Y2 PSC retakes	100%
----------------	------

### To narrow the gap between PP and Non PP pupils in school in core subjects.

Year 1 – Maths, Reading and Writing

Year 2 – Maths, and Writing

Year 3 - Maths, Reading and Writing

Year 4 - Maths, Reading and Writing

Year 5 – Maths, Reading and Writing

#### Year 6 - Not applicable - disadvantaged pupils outperforming non disadvantaged pupils

### Significant social, emotional and well-being issues for some disadvantaged pupils.

Successful strategies implemented across school to support pupils with SEMH including Reflexions, counselling, learning mentor support, mentoring (external). All have been shown to have a positive impact to respond to issues but early intervention from Family Support Worker and Learning mentor has had increased positive effect on pupils and families.

## Many pupils in receipt of pupil premium funding have limited experiences outside of school to develop their wider knowledge and cultural capital.

After school clubs are provided free of charge to pupils in receipt of PPG. A total of 19 clubs were offered last academic year. 53% of places (154/292 places available) in after school clubs were attended by PP children (who made up 44% of our school community).

All classes accessed a wide range of opportunities throughout the year with financial support for PP families as appropriate.

Pupil/Parent/Carer voice indicates that barrier to attending after school clubs were not financial.

## Externally provided programmes

Please include the names of any non-DfE programmes that you used your pupil premium to fund in the previous academic year.
