

For our next unit of work we will be titled:

## "People Who Help Us"

This will encompass many aspects of the curriculum but its main focus is around PSHE and History. Children will learn about people in the community who help us and their roles and responsibilities. They will also look at people who have helped us in the past and study The Great Fire of London and Florence Nightingale.

This booklet contains a list of activities linked to our learning in the classroom. Pupils can choose which activities they would like to complete (they do not need to be completed in the order presented here), They may do as many activities as they would like over the course of the term and record them in their new "Discover Homework" book. Children will be rewarded for every piece of work they complete.

These tasks will draw on a range of skills including ICT,

Literacy, Numeracy, Music, Drama, Art, Science and Design and Technology skills.

Children are also encouraged to create their own ideas for projects, there is space to record these on the back page of this booklet.

**Good luck with your learning log!**

Suggested tasks and activities (tick when completed):

Think about the people at home that help you. What do they do that helps you? Can you make a thank you card for them.

Think about people in your local area that help you. Can you make a list of who they are and what they do.

Can you create a job advert for a person in the community that helps people e.g. a firefighter, a doctor or a vet. Can you list what type of person they need to be and what they do as part of their job.

Do you know anyone who's job is helping people? Can you interview them and ask them what they do. Write down or record what they say and tell us about it at school.

What would you like to do when you grow up? Create a poster telling us about the job you hope to do. Can you find out how you become that job?
