

For our next unit of work we will be titled:

"Growing"

This will encompass many aspects of the curriculum but its main focus is around Science, Life Process and Growing.

This booklet contains a list of activities linked to our learning in the classroom. Pupils can choose which activities they would like to complete (they do not need to be completed in the order presented here), They may do as many activities as they would like over the course of the term and record them in their new "Discover Homework" book. Children will be rewarded for every piece of work they complete.

These tasks will draw on a range of skills including ICT,

Literacy, Numeracy, Music, Drama, Art, Science and Design and Technology skills.

Children are also encouraged to create their own ideas for projects, there is space to record these on the back page of this booklet.

Good luck with your learning log!

Suggested tasks and activities (tick when completed):

Have you got any photographs of you growing up? Can you bring in some to show how you have changed from a baby to a child?

Find out about the Life Cycle of a Human from being a baby all the way to old age. Can you create a picture of each stage and write some facts?

All living things need the same seven life processes to stay alive. Can you find out what they are?

Some animals come from eggs? Can you make a list of the animals you know are from eggs? Choose one interesting animal to research and bring in some facts to tell us.

What is your favourite animal? Find out about it's life process from baby to adult. Paint a picture of your favourite animal.

Very often baby animals are called something different to an adult e.g. a calf and a cow. Can you find out the names of 10 baby animals and match it to the adult?
