

For our next unit of work we will be titled:
“Out and About UK”

This will encompass many aspects of the curriculum but its main focus is around Geography.

This booklet contains a list of activities linked to our learning in the classroom. Pupils can choose which activities they would like to complete (they do not need to be completed in the order presented here). They may do as many activities as they would like over the course of the term and record them in their “Discover Homework” book. Children will be rewarded for every piece of work they complete.

These tasks will draw on a range of skills including ICT,

Literacy, Numeracy, Music, Drama, Art, Science and Design and Technology skills.

Children are also encouraged to create their own ideas for projects, there is space to record these on the back page of this booklet.

Good luck with your learning log!

Suggested tasks and activities (tick when completed):

Find and locate the UK on a world map. Can you label the seas and oceans surrounding it? Which continent is it in?

Look more closely at the map of the UK. Can you label England, Scotland and Wales? Can you label their capitals? Can you find Wolverhampton on the map?

Design and make the flags for England, Scotland and Wales.

Can you find out about St George and The Dragon? Can you depict this or write a short story about our patron saint of England?

Research information about your local area: Wolverhampton. Can you create a fact file full of fun facts to share with your friends?

Go on a walk around your local area. Take some photographs of key geographical features you spot.
