

Keeping our kids safe online

FREE Parent/Carer workshop led by Mark Lloyd from Engagedu Tuesday 8th September 8.45am at Merridale

Equilibrium Project Parent workshop - "Keeping our kids safe online"
The online world will have a huge impact on our children as they grow up.
Alongside amazing opportunities there are also significant risks. In our workshop, we help parents support their children to navigate the online world in a healthy way.

You will learn about:

- **Risk:** A simple guide to the challenges our children face.
- **Understanding:** Thinking about how the online world works so we can teach our children how to use it in healthy ways
- **Action:** How by simply talking more with our children we can support them in more ways
